WORK EXPERIENCE

_____

Quirk Auto Dealers - Technology Team

August 10th 2020 - June 2024

- Helped introduce customers to the new technologies located inside of their new vehicles
- Taking and receiving phone calls to help customers and to guide them on questions they may have after owning their vehicle for some time
- Ensured all the new vehicle technology worked as expected, testing and utilizing features inside of the vehicles that are essential for customers everyday usage

Quirk Auto Dealers - IT Support

June 2024 - Present

- Monitor the health of every computer in our network, assessing and responding to vulnerabilities detected in our system
- Wrote powershell scripts to monitor crucial information regarding the computers inside of our network such as a last log on date or the automation of tasks.
- Break down and assess issues found in computers that were reported as having issues

SKILLS

_____

Languages - Python, C, C#, HTML, CSS, Javascript, Java, Bash, Swift, SwiftUI, Powershell, PHP

EDUCATION

_____

University Of Massachusetts Boston - B.A., Computer Science
2022 - Present (Expected 2026)

Projects

_____

- **MusiTime** - Utilized the Spotify API to allow users to connect their Spotify account and request a playlist based on a certain genre/artist, song length, and a specific time duration
- **Create** - Command line tool to quickly and easily create a "main" function C file
